

Social Security Administration

§ 404.1520

oversight management of their consultative examination programs.

[56 FR 36959, Aug. 1, 1991, as amended at 65 FR 11877, Mar. 7, 2000; 71 FR 16444, Mar. 31, 2006; 75 FR 32846, June 10, 2010; 76 FR 24806, May 3, 2011]

PROCEDURES TO MONITOR THE CONSULTATIVE EXAMINATION

§ 404.1519t Consultative examination oversight.

(a) We will ensure that referrals for consultative examinations and purchases of consultative examinations are made in accordance with our policies. We will also monitor both the referral processes and the product of the consultative examinations obtained. This monitoring may include reviews by independent medical specialists under direct contract with SSA.

(b) Through our regional offices, we will undertake periodic comprehensive reviews of each State agency to evaluate each State's management of the consultative examination process. The review will involve visits to key providers, with State staff participating, including a program physician when the visit will deal with medical techniques or judgment, or factors that go to the core of medical professionalism.

(c) We will also perform ongoing special management studies of the quality of consultative examinations purchased from key providers and other sources and the appropriateness of the examinations authorized.

[56 FR 36960, Aug. 1, 1991]

EVALUATION OF DISABILITY

§ 404.1520 Evaluation of disability in general.

(a) *General*—(1) *Purpose of this section.* This section explains the five-step sequential evaluation process we use to decide whether you are disabled, as defined in § 404.1505.

(2) *Applicability of these rules.* These rules apply to you if you file an application for a period of disability or disability insurance benefits (or both) or for child's insurance benefits based on disability. They also apply if you file an application for widow's or widower's benefits based on disability for months after December 1990. (See § 404.1505(a).)

(3) *Evidence considered.* We will consider all evidence in your case record when we make a determination or decision whether you are disabled. See § 404.1520b.

(4) *The five-step sequential evaluation process.* The sequential evaluation process is a series of five "steps" that we follow in a set order. See paragraph (h) of this section for an exception to this rule. If we can find that you are disabled or not disabled at a step, we make our determination or decision and we do not go on to the next step. If we cannot find that you are disabled or not disabled at a step, we go on to the next step. Before we go from step three to step four, we assess your residual functional capacity. (See paragraph (e) of this section.) We use this residual functional capacity assessment at both step four and step five when we evaluate your claim at these steps. These are the five steps we follow:

(i) At the first step, we consider your work activity, if any. If you are doing substantial gainful activity, we will find that you are not disabled. (See paragraph (b) of this section.)

(ii) At the second step, we consider the medical severity of your impairment(s). If you do not have a severe medically determinable physical or mental impairment that meets the duration requirement in § 404.1509, or a combination of impairments that is severe and meets the duration requirement, we will find that you are not disabled. (See paragraph (c) of this section.)

(iii) At the third step, we also consider the medical severity of your impairment(s). If you have an impairment(s) that meets or equals one of our listings in appendix 1 of this subpart and meets the duration requirement, we will find that you are disabled. (See paragraph (d) of this section.)

(iv) At the fourth step, we consider our assessment of your residual functional capacity and your past relevant work. If you can still do your past relevant work, we will find that you are not disabled. See paragraphs (f) and (h) of this section and § 404.1560(b).

(v) At the fifth and last step, we consider our assessment of your residual functional capacity and your age, education, and work experience to see if
